Matt. 24:1 Jesus came out from the temple and was going away when His disciples came up to point out the temple buildings to Him.

Matt. 24:2 And He said to them, “Do you not see all these things? Truly I say to you, not one stone here will be left upon another, which will not be torn down.”

Matt. 24:3 As He was sitting on the Mount of Olives, the disciples came to Him privately, saying, “Tell us, when will these things happen, and what will be the sign of Your coming, and of the end of the age?”

Luke 21:7 They questioned Him, saying, “Teacher, when therefore will these things happen? And what will be the sign when these things are about to take place?”

Matt. 24:6 “You will be hearing of wars and rumors of wars. See that you are not frightened, for those things must take place, **but that is not yet the end.**

Luke 21:8 And He said, “See to it that you are not misled; for many will come in My name, saying, ‘I am He,’ and, ‘The time is near.’ Do not go after them.

Luke 21:9 “When you hear of wars and disturbances, do not be terrified; for these things must take place first, but **the end does not follow immediately.”**

Why is there Rampant Famine in the 21st Century?

Eradicating famine is entirely possible if governments mobilise their political will and address the structural causes of hunger. Erroneous debts should be cancelled, and food sovereignty and agrarian reform need to be urgently promoted, argue **Éric Toussaint** and **Damien Millet**.

12th May 09 - **Éric Toussaint** and **Damien Millet**, CADTM

One person in seven on this planet is permanently hungry. The causes are well known: a profound injustice in the distribution of wealth and the monopolizing of land by a small minority of large landowners.

According to the FAO [1], 963 million people were suffering from famine in 2008. Paradoxically, these people mainly live in rural areas. They are generally farmers who do not own land or do not own enough, and are without the means to cultivate it effectively.

What Caused the Food Crisis of 2007-2008?

It is important to emphasize that in 2007-2008, the number of people suffering from hunger increased by 140 million. This marked increase is due to the explosion of food prices [2]. In several countries retail food prices increased by as much as 50%, or even more.

Why such an increase? To answer this question, it is important to understand what has been happening over the past three years. Only then can alternative, appropriate policies be implemented.

On the one hand, the public authorities in the North increased their aid and subsidies for agro-fuels (mistakenly referred to as bio-fuels, since there is nothing organic about them). All of a sudden, it became profitable to replace subsistence crops with oleaginous crops or feed grains, or to divert part of grain cultivation (corn, wheat, etc.) towards the production of agro-fuels.

On the other hand, after the real estate bubble burst in the United States, with repercussions throughout the rest of the world, the major investors (pension funds, investment banks, hedge funds, etc.) shifted their focus and speculated on the futures market where contracts for food prices are negotiated (there are three main futures exchanges in the United States: Chicago, Kansas City and Minneapolis).

It is therefore urgent for citizens to take action to legally ban speculation on food prices. Despite the fact that speculation reached its peak and declined from the middle of 2008, and that futures prices have plummeted, retail prices have not followed suit. The vast majority of the world's population has a very low

Humanity is undergoing in the post-Cold War era an economic and social crisis of unprecedented scale leading to the rapid impoverishment of large sectors of the World population. National economies are collapsing, unemployment is rampant. Local level famines have erupted in Sub-Saharan Africa, South Asia and parts of Latin America. This "globalization of poverty" --which has largely reversed the achievements of post-war decolonization-- was initiated in the Third World coinciding with the debt crisis of the early 1980s and the imposition of the IMF's deadly economic reforms.

The New World Order feeds on human poverty and the destruction of the natural environment. It generates social apartheid, encourages racism and ethnic strife, undermines the rights of women and often precipitates countries into destructive confrontations between nationalities. Since the 1990s, it has extended its grip to all major regions of the World including North America, Western Europe, the countries of the former Soviet block and the "Newly

The average rate of big earthquakes – those larger than magnitude 7 – has been 10 per year since 1979, the study reports. That rate rose to 12.5 per year starting in 1992, and then jumped to 16.7 per year starting in 2010 – a 65 percent increase compared to the rate since 1979. **This increase accelerated in the first three months of 2014 to more than double the average since 1979,** the researchers report

Parsons, a research geophysicist with the U.S. Geological Survey (USGS) in Menlo Park, California.

Between 1978 and 2008, Oklahoma experienced an average of **just two quakes of 3.0 magnitude** of greater. As of June, there have been about **207 such quakes recorded** in the state in 2014, according to the U.S. Geological Survey.

Dan. 9:26 “Then after the sixty-two weeks the Messiah will be cut off and have nothing, and the people of the prince who is to come will destroy the city and the sanctuary. And its end will come with a flood; even to the end there will be war; desolations are determined.
